

Product Fact Sheet

DYLON FABRIC CARE

Dylon Power Whitener - #901842 Brilliant performance for the whitest of washes

After a while whites can lose their brightness and look a little dull. Dylon Power Whitener puts the dazzle back into your whites – ideal when family life puts whites to test with ingrained dirt and stubborn stains. With its oxy-based dual action stain remover and whiteners, it's a powerful solution for brilliant whites.

DIRECTIONS FOR MACHINE WASH

- Empty one sachet into soap dispenser drawer or directly into the drum of a top loading washing machine
- Add washing detergent, wash & dry as usual
- Effective at all wash temperatures; cold – warm (40°C) – hot (60°C)

DIRECTIONS FOR HANDWASH

- Dissolve contents of one sachet into the hottest water the fabric care label allows
- Add garments, wash & dry as usual (can be soaked overnight for stubborn stains)
- Rubber gloves should be worn for all hand use
- No additional detergent is required

GENERAL TIPS:

- Some coloured trims on white garments are not colourfast to soaking with oxygen based stain removers. Please check the care label on the inside seam for washing instructions.
- Dylon Colour Run Remover Whites is a bleaching treatment that can reduce or remove yellowing caused by chlorine bleaching or sun damage. Ideal for removing fabric dye stains in 100% whites.
- This product is not suitable for use on WOOL and SILK because this product contains amongst other ingredients oxygen based bleaching agents.
