

Product Fact Sheet

DYLON FABRIC CARE

Stain Remover for greasy stains

– Oil spots, makeup, grass, shoe polish, wax & adhesives

Most greasy, sticky & ink based stains can be eliminated with this Dylon Stain Remover. Also effective on ketchup, pasta sauces, chocolate, gum, pollen, inks, nail varnish and emulsion paint.

Stain Remover for biological stains

– Tea, coffee, wine, blood, gravy, milk, mud

Most stains from food, drink and other biological sources can be eliminated with this Dylon Stain Remover. Also effective on collar & cuff grime, coffee, fruit juice, jam, urine & perspiration.

Dylon Stain Removers are safe for use on all washable fabrics even delicates like wool and silk (not carpets) because they are bleach free. The unique applicator controls the flow of stain remover on to the fabric preventing an excess of product from being used and/or causing the stain to spread.

EASY TO USE DIRECTIONS:

- Scrape off excess & place cloth under stain for delicate fabrics
- Dab applicator covering all affected area
- Wash & dry as normal
- Repeat if necessary

GENERAL TIPS

- Treat stain when fresh, if possible
- For stubborn greasy stains apply 10 -15 mins before wash
- For stubborn biological stains apply 30 mins before wash
